Brandi Gordon and Hap Stokes hans1355@isd194.org	Science Olympiad is a science competition program with regional and state competitions. At KTMS, Science Olympiad functions much like a football or soccer team, requiring preparation, commitment, coaching and practice throughout the year. Our school-based team consists of 15 students who cross-train for a variety of events involving life, physical and earth sciences and including math and engineering skills. There are two competitions, the regional tournament in late January/early February and the state tournament, in early March. Plans are in place for running at least one team (maybe more!) this year.	106	6-8	10/8/2022	3/18/2021	Friday	2:10:00 PM	3:15:00 PM	15 for the first team, more students as alternates and possibly a 2nd team.
